

## HELP WANTED!

### BE A PEOPLE'S ECONOMY LEAD FOR YOUR COMMUNITY!

ROP is looking for sharp and curious community members who want to partner with ROP to shape a new economy for rural Oregon, one built on the values of equity, solidarity, and sustainability!

#### What will I do as a People's Economy lead?

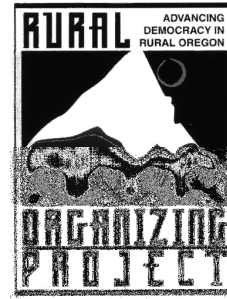

You'll be part of the team of masterminds behind our People's Economy campaign. We'll ask your advice, invite you to share your experience with Human Dignity Groups and leaders, we'll think of you first when it comes to fun or important opportunities, and we'll help to amplify your work and voice. In other words, you might:

- Provide overall input and strategic advice to ROP staff and volunteers on our People's Economy campaign, together with other PE Leads from rural communities around the state.
- Collaborate with ROP staff and local community partners to develop a People's Economy campaign plan and strategy specific to your community
- Share your personal story and that of your community with other communities as part of a regional community-to-community speakers tour.
- Support your town to Bring our Money Home by researching local credit unions and community banks, and helping people and organizations to move their money
- Participate in a statewide gathering this October of People's Economy leads to evaluate campaign progress and strategize next steps

Sounds neat. I'm interested. What's next?

Contact ROP today to learn more!
